

CONTENT

INTRODUCTION.....	11
1. CHALCOGENIDE COMPOUNDS	12
1.1. Sulfides, selenides, tellurides.....	12
Mixed chalcogenides	15
Multicentric chalcogenides	17
References	18
2. IONIC CHALCOGENIDES	19
2.1. Chalcogenides of alkali metals.....	19
2.1.1. Lithium chalcogenides	19
2.1.1.1. Lithium sulfides	19
2.1.1.2. Lithium selenide.....	21
2.1.1.3. Lithium tellurides.....	21
2.1.2. Sodium chalcogenides.....	21
2.1.2.1. Sodium sulfides	21
2.1.2.2. Sodium selenides	24
2.1.2.3. Sodium tellurides.....	25
2.1.3. Potassium chalcogenides.....	26
2.1.3.1. Potassium sulfides	26
2.1.3.2. Potassium selenides	27
2.1.3.3. Potassium tellurides.....	29
2.1.4. Rubidium chalcogenides	30
2.1.4.1. Rubidium sulfides	30
2.1.4.2. Rubidium selenides.....	32
2.1.4.3. Rubidium tellurides	33
2.1.5. Cesium chalcogenides	35
2.1.5.1. Cesium sulfides.....	35
2.1.5.2. Cesium selenides.....	36
2.1.5.3. Cesium tellurides	38
2.1.6. Francium chalcogenides.....	39
2.2. Chalcogenides of alkaline earth metals	39
2.2.1. Beryllium chalcogenides.....	39
2.2.1.1. Beryllium sulfide	39
2.2.1.2. Beryllium selenide.....	40

2.2.1.3. Beryllium telluride.....	40
2.2.2. Magnesium chalcogenides.....	41
2.2.2.1. Magnesium sulfide.....	41
2.2.2.2. Magnesium selenides.....	41
2.2.2.3. Magnesium tellurides.....	42
2.2.3. Calcium chalcogenides.....	43
2.2.3.1. Calcium sulfide.....	43
2.2.3.2. Calcium selenide.....	44
2.2.3.3. Calcium telluride.....	44
2.2.4. Strontium chalcogenides.....	44
2.2.4.1. Strontium sulfides.....	44
2.2.4.2. Strontium selenide.....	46
2.2.4.3. Strontium telluride.....	46
2.2.5. Barium chalcogenides.....	46
2.2.5.1. Barium sulfides.....	46
2.2.5.2. Barium selenide.....	47
2.2.5.3. Barium tellurides.....	48
2.2.6. Radium chalcogenides.....	49
2.2.6.1. Radium sulfide.....	49
2.2.6.2. Radium selenide.....	49
2.2.6.3. Radium telluride.....	49
References.....	49

3. CHALCOGENIDES OF THE SP-ELEMENTS 55

3.1. Chalcogenides of the second period.....	55
3.1.1. Boron chalcogenides.....	55
3.1.1.1. Binary compounds.....	55
3.1.1.2. Multielement compounds.....	56
3.1.2. Carbon chalcogenides.....	60
3.1.2.1. Binary compounds.....	60
3.1.2.2. Multielement compounds.....	60
3.2. Chalcogenides of the third period.....	61
3.2.1. Aluminum chalcogenides.....	61
3.2.1.1. Binary compounds.....	61
3.2.1.2. Multielement compounds.....	61
3.2.2. Silicon chalcogenides.....	63
3.2.2.1. Binary compounds.....	63
3.2.2.2. Multielement compounds.....	64
3.3. Chalcogenides of the fourth period.....	66
3.3.1. Gallium chalcogenides.....	66
3.3.1.1. Binary compounds.....	66
3.3.1.2. Multielement compounds.....	67

3.3.1.3. Copper(I) gallium-indium selenide	68
3.3.2. Germanium chalcogenides.....	69
3.3.2.1. Binary compounds.....	69
3.3.2.2. Multielement compounds	70
3.3.3. Arsenic chalcogenides	71
3.3.3.1. Binary compounds.....	71
3.3.3.2. Multielement compounds	72
3.4. Chalcogenides of the fifth period.....	75
3.4.1. Indium chalcogenides.....	75
3.4.1.1. Binary compounds.....	75
3.4.1.2. Multielement compounds	76
3.4.2. Tin chalcogenides	78
3.4.2.1. Binary compounds.....	78
3.4.2.2. Multielement compounds	79
3.4.3. Antimony chalcogenides	81
3.4.3.1. Binary compounds.....	81
3.4.3.2. Multielement compounds	81
3.5. Chalcogenides of the sixth period.....	83
3.5.1. Thallium chalcogenides.....	83
3.5.2. Lead chalcogenides	84
3.5.3. Bismuth chalcogenides.....	85
3.5.3.1. Binary compounds.....	85
3.5.3.2. Multielement compounds	86
References	87

4. CHALCOGENIDES OF THE DSP-ELEMENTS..... 93

4.1. Introduction.....	93
4.2. Chalcogenides of the scandium subgroup elements.....	94
4.2.1. Chalcogenides of scandium	94
4.2.1.1. Sulfide compounds of scandium.....	94
4.2.1.2. Selenides and tellurides of scandium.....	94
4.2.2. Chalcogenides of yttrium	95
4.2.2.1. Sulfide compounds of yttrium.....	95
4.2.2.2. Selenide compounds of yttrium	96
4.2.2.3. Telluride compounds of yttrium.....	97
4.3. Chalcogenides of titanium subgroup elements	97
4.3.1. Chalcogenides of titanium	97
4.3.1.1. Sulfide compounds of titanium.....	97
4.3.1.2. Selenide and telluride compounds of titanium.....	101
4.3.2. Chalcogenides of zirconium.....	102
4.3.2.1. Sulfide compounds of zirconium	102
4.3.2.2. Selenide compounds of zirconium.....	103

4.3.2.3.	Telluride compounds of zirconium	104
4.3.3.	Chalcogenides of hafnium	105
4.3.3.1.	Sulfide compounds of hafnium.....	105
4.3.3.2.	Selenides and tellurides of hafnium.....	106
4.4.	Chalcogenides of vanadium subgroup elements.....	107
4.4.1.	Chalcogenides of vanadium.....	107
4.4.1.1.	Sulfide compounds of vanadium	107
4.4.1.2.	Selenide and telluride compounds of vanadium	108
4.4.2.	Chalcogenides of niobium	109
4.4.2.1.	Sulfide compounds of niobium.....	109
4.4.2.2.	Selenide and telluride compounds of niobium.....	110
4.4.3.	Chalcogenides of tantalum	112
4.4.3.1.	Sulfide compounds of tantalum.....	112
4.4.3.2.	Selenide compounds of tantalum	114
4.4.3.3.	Telluride compounds of tantalum	115
4.5.	Chalcogenides of the chromium subgroup elements.....	116
4.5.1.	Chalcogenides of chromium	116
4.5.1.1.	Sulfide compounds of chromium.....	116
4.5.1.2.	Selenide compounds of chromium	118
4.5.1.3.	Telluride compounds of chromium.....	119
4.5.2.	Chalcogenides of molybdenum	120
4.5.2.1.	Sulfide compounds of molybdenum.....	120
4.5.2.2.	Selenide and telluride compounds of molybdenum.....	120
4.5.3.	Chalcogenides of tungsten	121
4.5.3.1.	Sulfide compounds of tungsten	121
4.5.3.2.	Selenide and telluride compounds of tungsten	122
4.6.	Chalcogenides of the manganese subgroup elements	123
4.6.1.	Chalcogenides of manganese.....	123
4.6.1.1.	Sulfide compounds of manganese	123
4.6.1.2.	Selenide compounds of manganese.....	125
4.6.1.3.	Telluride compounds of manganese	127
4.6.2.	Chalcogenides of technetium.....	129
4.6.2.1.	Sulfide, selenide and telluride compounds of technetium	129
4.6.3.	Chalcogenides of rhenium	129
4.6.3.1.	Sulfide, selenide and telluride of rhenium	129
4.7.	Chalcogenides of iron subgroup elements	131
4.7.1.	Chalcogenides of iron.....	131
4.7.1.1.	Sulfide compounds of iron.....	131
4.7.1.2.	Selenide compounds of iron.....	133
4.7.1.3.	Telluride compounds of iron	135
4.7.2.	Chalcogenides of ruthenium.....	135
4.7.2.1.	Sulfides, selenides and tellurides of ruthenium	135

4.7.3.	Chalcogenides of osmium.....	136
4.7.3.1.	Sulfides, selenides and tellurides of osmium.....	136
4.8.	Chalcogenides of the cobalt subgroup elements.....	136
4.8.1.	Chalcogenides of cobalt.....	136
4.8.1.1.	Sulfide compounds of cobalt.....	136
4.8.1.2.	Selenide and telluride compounds of cobalt.....	137
4.8.2.	Chalcogenides of rhodium.....	138
4.8.2.1.	Sulfides of rhodium.....	138
4.8.2.2.	Selenides and tellurides of rhodium.....	139
4.8.3.	Chalcogenides of iridium.....	139
4.8.3.1.	Sulfides of iridium.....	139
4.8.3.2.	Selenides and tellurides of iridium.....	140
4.9.	Chalcogenides of the nickel subgroup elements.....	141
4.9.1.	Chalcogenides of nickel.....	141
4.9.1.1.	Sulfide compounds of nickel.....	141
4.9.1.2.	Selenides and tellurides of nickel.....	141
4.9.2.	Chalcogenides of palladium.....	142
4.9.2.1.	Sulfide compounds of palladium.....	142
4.9.2.2.	Selenide and telluride compounds of palladium.....	143
4.9.3.	Chalcogenides of platinum.....	144
4.9.3.1.	Sulfide compounds of platinum.....	144
4.9.3.2.	Selenide and telluride compounds of platinum.....	146
4.10.	Chalcogenides of the copper subgroup elements.....	147
4.10.1.	Chalcogenides of copper.....	147
4.10.1.1.	Sulfide compounds of copper.....	147
4.10.1.2.	Selenide compounds of copper.....	148
4.10.1.3.	Telluride compounds of copper.....	148
4.10.2.	Chalcogenides of silver.....	149
4.10.2.1.	Sulfide compounds of silver.....	149
4.10.2.2.	Selenide and telluride compounds of silver.....	151
4.10.3.	Chalcogenides of gold.....	152
4.10.3.1.	Sulfides, selenides and tellurides of gold.....	152
4.11.	Chalcogenides of the zinc subgroup elements.....	153
4.11.1.	Chalcogenides of zinc.....	153
4.11.1.1.	Sulfide compounds of zinc.....	153
4.11.1.2.	Selenide and telluride compounds of zinc.....	154
4.11.2.	Chalcogenides of cadmium.....	155
4.11.2.1.	Sulfide compounds of cadmium.....	155
4.11.2.2.	Selenide and telluride compounds of cadmium.....	155
4.11.3.	Chalcogenides of mercury.....	157
4.11.3.1.	Sulfide compounds of mercury.....	157
4.11.3.2.	Selenide and telluride compounds of mercury.....	157

4.12. Metal-rich chalcogenides	158
4.12.1. Metal-rich chalcogenides of scandium.....	158
4.12.2. Metal-rich chalcogenides of titanium.....	159
References	159
5. CHALCOGENIDES OF LANTHANIDES AND ACTINIDES.....	191
5.1. Chalcogenide compounds of lanthanides	191
5.1.1. Chalcogenides with stoichiometry LnQ	192
5.1.2. Chalcogenides with stoichiometry Ln_2Q_3	192
5.1.3. Chalcogenides with stoichiometry LnQ_2	194
5.1.4. Chalcogenides with stoichiometry Ln_2Q_5	195
5.1.5. Chalcogenides with stoichiometry Ln_3Q_4	195
References	195
5.2. Chalcogenide compounds of actinides.....	199
5.2.1. Chalcogenides with stoichiometry AnQ	199
5.2.2. Chalcogenides with stoichiometry An_2Q_3	200
5.2.3. Chalcogenides with stoichiometry AnQ_2	201
5.2.4. Chalcogenides with stoichiometry An_2Q_5	203
5.2.5. Actinide chalcogenides with less common stoichiometry	204
5.2.5.1. AnQ_3	204
5.2.5.2. An_3Q_4	205
5.2.5.3. An_3Q_5	205
References	205
